

Query araised by the bidders

Query1

<u>Sr. No.</u>	<u>Question No.</u>	<u>Answer</u>
1.	<p>a) Clause 4.15 sets aside Five (5 marks) for management qualification of the applicant.</p> <p>b) An assignment like this has a high technical content, wherein it is more important to have higher technical qualification, such as Post- graduation in Electronics/IT Engineering. Therefore, applicants with such qualification should be treated at par with the ones possessing Management Qualification.</p>	<p>In Section 3: Prequalification and Eligibility Criteria: Post- graduation in Electronics/IT Engineering is added and same is updated in the table under section 4.15 of opening of bids and Procedure of the evaluation. Now there is 5 Marks for Post- graduation in Electronics/IT Engineering/ Management.</p>
2.	<p>c) Re: Experience in vehicle Tracking System Devices, the stated break-up for range of marks is based on 3000 or higher number of vehicles, and then there is a requirement that one of the reference projects must have at least 1000 vehicles to qualify. Just a few applicants would qualify against such restrictive qualification, and this is apparently against the spirit of "open tender" which is meant to ensure a fair playing field for at least a reasonable number of competitors.</p>	<p>No Change: There are nearly 2000 buses of Punjab Roadways and PUNBUS in which VTS devices are to be installed. So this experience is mandatory.</p>
